Call For Papers IWCEE 2024

XII International Workshop on Computational Economics and Econometrics
Science, Innovation, and Growth: Exploring New Inputs and Cross Effects.

27-28 JUNE, 2024

CNR-IRCrES, Rome

The workshop is dedicated to exploring the intersections of science, innovation, and growth through quantitative analysis techniques in the fields of computational economics and econometrics; aiming to bring together researchers and practitioners to discuss and advance our understanding of the dynamics shaping these crucial domains. Participants are encouraged to submit papers that address one or more of the aforementioned topics using quantitative analysis techniques. Submissions can focus on individual topics or explore the relationships between science, innovation, and growth. We welcome papers that employ novel quantitative approaches and leverage new sources of data to advance research in the fields of innovation economics and the science of sciences.

Main topics of interest

(not limited to)

- Analyzing the impact of government policies on innovation and economic growth
- Understanding the role of technological change in driving productivity improvements
- Exploring the dynamics of knowledge spillovers and their effects on regional development
- Investigating the relationship between research funding, scientific output, and social impact
- Analyzing innovation patterns for innovation co-creation using network analysis
- Assessing the effectiveness of science and technology policies in fostering innovation
- Examining the emergence and evolution of innovation clusters and ecosystems
- Utilizing machine learning and big data analytics to uncover new insights into economic phenomena

SUBMISSION GUIDELINES

Authors are invited to submit an extended abstracts (min 1000 words, max 2000 words) from well-developed paper.

Submissions should contain a clear research question with related background, a description of data and computational strategy, results (even in a preliminary stage).

All submissions will undergo a rigorous review process to ensure quality and relevance. Please submit your contributions sending adding "SUBMISSION IWcee24" in the object.

Accepted papers will have the opportunity to be presented during the workshop sessions and in a special issue of the International Journal of Computational Economics and Econometrics.

IMPORTANT DATES

Submission Opening	1st March 2024
Submission Deadline	19th April 2024
Notification of Acceptance	17th May 2024
Conference Date	27th and 28th June 2024
