

EDOARDO N. LORENZETTI

CNR-IRCrES

Via dei Taurini, 19 - Roma

edoardonovello.lorenzetti@cnr.it

ACADEMIC TITLES

- Degree in Sociology (110/110), awarded March 9, 1983, at the University of Rome "La Sapienza"
- Degree in Literature (110/110), awarded on April 19, 1993, at the University of Rome "La Sapienza"

CURRENT POSITION

Associated Senior Researcher

Research Institute on Sustainable Economic Growth (IRCrES) of the National Research Council of Italy

www.ircres.cnr.it

Department of Social Science and Humanities, Cultural Heritage (DSU)

LAST POSITION

Senior Researcher

Research Institute on Sustainable Economic Growth (IRCrES) of the National Research Council of Italy

www.ircres.cnr.it

Department of Social Science and Humanities, Cultural Heritage (DSU)

www.dsu.cnr.it

SCIENTIFIC PROFILE

The university education covered cultural anthropological disciplines, with reference to general theoretical and methodological issues concerning the symbolic systems of various cultures of ethnological interest and related to forms of traditional European thought.

The scientific sectors in which he has been most involved, along his carrier at the National Research Council of Italy, are:

- Protection and enhancement of tangible and intangible cultural heritage (historical urban spaces, UNESCO Representative List of the Intangible Cultural Heritage of Humanity, museum systems, traditional festivals).
- Dissemination of the scientific research results through the use of innovative methodologies.

The research activity, characterized by a significant application component, comprises specific projects and tasks.

He has worked as a university professor, with contract, at various Italian universities: University of Macerata; Free University Maria Santissima Assunta – LUMSA (Rome); University of Rome “La Sapienza”.

NATIONAL PROJECTS - CULTURAL HERITAGE

2023-2025 (CNR-IRCrES)

PRIN 2022: Project "Scholars at War Digital Library: an Innovative Environment for Advanced Documents Management" (SWarD) aims to offer to the "society of knowledge" a new repository of primary sources connecting knowledge and politics, like autobiographies, memoirs, political writings, correspondences of European academics, especially philologist and linguists, between the chronological extremes of the Franco-Prussian War (1870) and the fall of the Berlin Wall (1989).

2010 - 2012 (CNR-CERIS, CNR - Department of Humanities and Social Sciences, UNESCO World Heritage Office of the Ministry for Cultural Heritage and Activities)

Scientific collaboration regarding the activities planned for the implementation of the UNESCO Convention for the Protection of Intangible Cultural Heritage, with particular reference to the following activities:

- Preliminary research on the elements of the intangible cultural heritage proposed for the candidature in the Representative List of the Intangible Cultural Heritage of Humanity (ICHL) or in the List to Urgent Safeguard due to their possible disappearance;
- organizing working groups and technical tables with representatives of Regions, Municipalities, and Associations interested in Italian candidature proposals in one of the two Lists provided for by the Convention for the protection of intangible cultural heritage;
- studying the implementation of the elements of the Intangible Cultural Heritage in the Italian sites registered in the World Heritage List (WHL) for the integration of the tangible and intangible cultural heritage in the territory.

Results achieved: registration in the UNESCO List of the Intangible Cultural Heritage of Humanity of the following elements of the Italian intangible cultural heritage: Traditional violin craftsmanship in Cremona (2012); Celebrations of big shoulder-borne processional structures (2013), Mediterranean Diet (2013).

2009 - 2010 (CNR-CERIS)

Recovering the database contents of the project *Les Fêtes du Soleil*, UNESCO Mediterranean Program, as part of the agreement between the CERIS and the UNESCO World Heritage Bureau of MiBAC concerning safeguarding intangible cultural heritage.

2007 - 2008 (CNR-CERIS)

Research on the Italian Scientific Museums promoted by the Government Working Group for the Development of Scientific and Technological Culture was carried out by CERIS in collaboration with the IBM Italia Foundation.

2002 (CNR-ISRDS)

Testing of the new Scientific Instruments Card (STS) on the scientific and historical heritage of the CNR, in collaboration with the Central Institute for Cataloguing and Documentation (ICCD), as the first repertoire of the instruments used in the CNR laboratories, with significant historical and scientific value, for the establishment of a CNR Historical Photo Library on the web.

2000 (CNR-ISRDS)

Web publishing of the Historical Squares Database, in collaboration with Thera S.r.l., on behalf of the Central Institute for Cataloguing and Documentation (ICCD) of the Ministry of Cultural Heritage and Activities (MiBAC).

1998 (CNR-ISRDS)

CNR Mezzogiorno Strategic Project - Creating a multi-platform containing data on 42 historical squares in southern Italy.

1998 (CNR-ISRDS)

Privernum Project - Designing and implementing a territorial archaeological information system, on the area of the ancient Priverno, of the Amaseno Valley and a significant area of the southern Agro Pontino (Latium)

1997 - 2000 (CNR-ISRDS)

Finalized Cultural Heritage Project - National Committee of Science and Technology of Cultural Heritage for the following research themes:

- Squares and historical streets: A new pattern of urban spaces representation and of the forms of socio-cultural experience
- ; Italian scientific museums: functions and organization
- ; Documentation and analysis of production cycles and traditional ritual forms through innovative audiovisual technologies.

1997 (CNR-ISRDS, ICCD)

Studying and implementing the technological and methodological recovery of the database on the Historical Squares of Southern Italy and Insular, in collaboration with the Central Institute for Cataloguing and Documentation (ICCD), Ministry of Cultural Heritage and Activities (MiBAC).

1995 - 1996 (CNR-ISRDS)

First place in the competition announcement for scholarships organized by the National Research Council, within the framework of the European Structural Fund Program (Objective 1) addressed to the disciplines related to the National Committee for the Science and Technology of Cultural Heritage; the scholarship provides for carrying out training activities at the Institute for Studies on Research and Scientific Documentation.

1994 - 1995 (CNR - National Committee for the Science and Technology of Cultural Heritage)

Strategic Project for Cultural Heritage - Sub-project 4 - Biological and ethno-anthropological archive. Theme 4.2: Studies and methodologies for a classification, integrated reading and interpretation of ethno-anthropological assets and related territorial contexts:

- Hypermedia catalogue of ethnographic museums and territorial documentation for the regions of Tuscany and Lazio (METL).

1992 (National Museum of Arts and Popular Traditions)

Field research surveys (Southern Lazio) and cataloguing of the ethnographic documentation material for the Special Office of the Ministry of Cultural Heritage and Environment.

1992 (CNR - Science National Committee for Cultural Heritage and Technology)

Strategic Project "The impact of the discovery of America - a historical and comparative study on the perception of cultural diversity in the European mentality and pre-Columbian civilization".

1989 - 1991 (Tara s.r.l.)

Executive development of various research projects concerning the protection and enhancement of national cultural and historical heritage through the use of multimedia documentation procedures:

- The Historic Center of Catania: Multimedia system applied to an architectural, historical, artistic and urban heritage database.
- The urban system of Palmi: From the reconstructed architectures following the earthquake of 1783 to a tourism development project.
- The urban system of Seminara: From the architecture of the reconstructions after the earthquake of 1783 to a tourism development project.
- For a national standard of cataloguing and visual analysis of the stone materials and their derivatives. Collaborating with the National Committee of Science and Technology of Cultural Heritage of CNR.
- The Mountain Communities in Campania - Cartographic Database construction concerning 11 Mountain Communities of Campania related to developing a mapping services structure and support for planning and design activities.
- Christopher Columbus and the Culture of Travel - Bibliography and Documentary Materials Databases are related to the great navigator and the theme of travel in every era.
- Historical Centers - National census and validation of the pre-catalogue and catalogues relating to urban centres' cultural and historical heritage.
- Nesos - Elaborating a preliminary study of the historical centres cataloguing of the Sicily Region.

1987 - 1989 (Agora Consortium)

Preliminary study and creation of a multimedia database on a large sample of typological historic squares of Southern Italy and the Islands. In this context, in addition to direct fieldwork (socioeconomic profile and survey of the cultural heritage of the affected centres), he performs the role of coordination at the national level, contributing to the redefinition and the further scientific and operational development of the sociological and anthropological part of the project.

1986 (National Prehistoric and Ethnographic Museum “Luigi Pigorini”)

Special Office of the Ministry of Culture and Environment - campaigns cataloged several ethnographic materials (Africa et al.) and prepared exhibitions and other scientific events.

NATIONAL PROJECTS - DISSEMINATION OF R&D RESULTS

2014-2016 (CNR-IRCrES)

Project SM@RTINFRA SSHCH - Development of a database for creating the innovation and technology transfer office of the Department of Humanities and Social Sciences, Cultural Heritage (DSU) of the National Research Council.

Funding amount: € 47,442

2002-2014 (CNR-ISRDS / ISPRI / CERIS)

Project manager of the Technology Transfer Data Bank of CNR, containing about 10,000 files on skills and scientific results of public research in Italy, potentially transferable to the industrial sector.

2008-2009 (CNR-CERIS, Latium Financial Bank - FILAS)

Development of the first database called the Register of Research of Lazio (ARL). Experimental development of a second database, reserved for institutional purposes of Filas, called Regional

Innovation Exchange (BIR), containing only the research results potentially valuable for the industrial sectors of Latium.

Funding amount: € 59,400

2006 (University of Rome “La Sapienza”)

BLINK - Database and territorial mapping of biomedical research on behalf of the Schering Foundation and in collaboration with the Mario Negri Pharmacological Institute of Milan.

2005-2008 (CNR-CERIS)

Three-year Master “Urban and Indoor Environment” - Interuniversity Center for Environmental Technology and Chemistry - Retrieval, acquisition, cataloguing and dissemination of the scientific documentation through a specific web page regarding the themes indicated by the Master's program.

2004 (CNR-CERIS, Presidency of the CNR)

RICERC@.IT Project - Develop a network information system for the institutions, bodies, and public and private research structures operating in Italy.

2003-2005 (CNR-CERIS, National Committee of Biosecurity and Biotechnology of the Presidency of the Council of Ministers, Institute for Industrial Promotion of the Ministry of Productive Activities)

Studying and developing an information system called Italiabiotec allows the informatic acquisition and dissemination of helpful information in the biotechnology field, and it also serves as a tool for national mapping and networking.

Funding amount: € 57,600

2001-2002 (CNR-ISRDS)

Brain Drain Project: Emigration Flows for Qualified Scientists funded by the European Commission to study the migratory flows of scientists on an international scale, particularly of the European framework.

2000 (CNR-ISRDS)

Research project on the dynamics of the information exchange relationship between the prevention department of a Local Health Authority (ASL), the National Institute for Prevention and Workplace Health Promotion (ISPESL), ASL services and the citizens, through the creation of prototype databases.

1999-2002 (CNR-ISRDS/ISPRI)

Creation of a Territorial Telematic Network within the area of the Castelli Romani Park, characterized by multidisciplinary and intersectoral features to integrate the skills and knowledge of the scientific, technical and production institutions present at the local level, in collaboration with the Department of Environment of the Province of Rome, the Regional Park of the Castelli Romani, the Regional Administration of Lazio, the Tor Vergata Science and Technology Park, ESA Center for Earth Observation.

1999 (CNR-ISRDS, Presidency of the CNR)

Enhancement of research for practical purposes in collaboration with banks through a website (<http://www.presidenza.cnr.it/progetto/>) in which information files are collected about high-profile

patented and industrially exploitable scientific and technological results and through venture capital initiatives for the development of Hi-Tech companies.

1997 (CNR-ISRDS, Higher School of Public Administration, Aiscris-FITA Confindustria, Inforav, Trainet Telecom, Alpitour)

The study of interventions aimed at enhancing the Italian environmental and cultural heritage in an entrepreneurial sense with particular reference to the cultural tourism sector.

1996 (CNR-ISRDS)

Collaboration in other research activities related to technological innovation:

- Strategic Project Use and Transfer of Research Results.
- Monitoring and forecasting future scenarios on emerging scientific discoveries and technological innovations in a European framework; in collaboration with the Institute for Prospective Technological Studies (IPTS) in Seville (European Commission - DG XII - Joint Research Center),
- In collaboration with Airi - Italian Association for Industrial Research, preliminary works are needed to prepare the European project IMTIC (Innovation Management Techniques for Industry Clusters).

1996 (CNR-ISRDS, Ministry of Foreign Affairs)

Scholarship (Noopolis): verification testing of the Technology Transfer Database (BDTT) contents and of the information resources available on the Internet with particular reference to the priority technologies for Italian industry indicated by the Airi - Italian Association for Industrial Research.

1995 (CNR-ISRDS)

Strategic Project “Use and transfer of results of Finalized Projects” to encourage collaboration between scientific research and the business world through the study and the implementation of innovative methods and tools for documentation.

EUROPEAN PROJECTS - CULTURAL HERITAGE

2015-2020 (CNR-IRCrES, CNR - Department of Humanities and Social Sciences)

SpinBook Project - Studying and implementing a new web tool for all the categories of specialists involved in the innovation process (from researchers to industry), each with its own specific user profile acting on a social platform. The project aims to create a network between the specialists involved to act as a flywheel for disseminating innovative technologies in the cultural heritage field. SpinBook is part of the WP11 activities (Marketplaces for knowledge and innovation) of the Integrated Project for the European Research Infrastructure on Culture Heritage project (IPERION CH), (<http://www.iperionch.eu>), as part of the research program European Horizon 2020, which plans the creation of a unique European research infrastructure for the restoration and conservation of cultural heritage, composed of 23 recognized national excellence structures from 12 European countries together with a vast network of international affiliations and collaborations.

First funding amount: € 30,000

2014-2015 (CNR-IRCrES, Cambridge Centre for Landscape and People, University IUAV of Venice)

Progetto ESLAND (European Culture expressed in Island Landscapes) - Designing an innovative methodology to be tested on a peculiar place, such as a sample of European islands, taking into account the tangible and intangible elements of the heritage. The aim is to find an interdisciplinary analysis methodology for a complete knowledge of the different factors that contribute to the

definition of the landscape and historical, architectural and anthropological characteristics of the historical urban spaces.

1998-1999 (CNR-ISRDS)

Aquarelle Project - Prototype of a networked multimedia system for accessing documentary materials on the European cultural heritage produced by public and private cultural institutions and placed on heterogeneous databases.

EUROPEAN PROJECTS - DISSEMINATION OF R & D RESULTS

2015-2020 (CNR-IRCrES, CNR - Department of Humanities and Social Sciences)
SpinBook Project (see above).

2006-2017 (CNR-CERIS/IRCrES)

CNR Focal Point within the ETEPS project (European Techno-Economic Policy Support) aims to study the interdependencies between science, technology, economy, and society, with particular attention to the aspects related to forecasting and evaluation.

2007-2012 (CNR-CERIS, European Commission - General Directorate for Research, Joint Research Center, IPTS-Institute for Prospective Technological Studies/University of Seville)
ERAWATCH Base Load Inventory - Joint initiative for establishing a web information platform on systems and research policies of the European Union.
Funding amount: € 51,870

2003-2007 (CNR-CERIS)

Focal Point CNR within the ESTO (European et al. Observatory) project aims to create a network for monitoring and analyzing the latest developments in the various scientific and technological fields at the European and international levels.

INSTITUTIONAL TASKS

2020–2023 (CNR-IRCrES)

From March 2020 to December 2023, Responsible for the Rome office of the Research Institute on Sustainable Economic Growth (IRCrES) of the National Research Council of Italy.

2010–2012 (CNR-CERIS)

Scientific advisor to the UNESCO World Cultural Heritage Office of the Ministry of Cultural Heritage and Activities (MiBAC), serving as an expert on intangible heritage in the UNESCO inter-ministerial working group for UNESCO World Heritage.

2005 (CNR-CERIS)

Appointed as an expert in research result transfer for the Working Group on White Biotechnology by the National Committee of Biosafety and Biotechnology. Tasked with conducting a study on the societal implications of using traditional or modified plant organisms for energy purposes.

2005 (CNR-CERIS)

Member of the Department of Economic Development and Productive Activities of the Province of Rome, analyzing technology transfer processes and supporting the alignment of knowledge transfer to the needs of SMEs.

2001 (CNR-ISRDS)

Member of the CNR Commission for the Special Integrated Research Fund (FISR), studying the impact of technology transfer on local policies.

2000–2003 (CNR-ISRDS)

Member of the commission tasked with preparing the catalogue for intangible cultural heritage (BDI) at the Central Institute for Cataloguing and Documentation (ICCD), Ministry of Cultural Heritage and Activities (MiBAC).

UNIVERSITY TEACHING

Held contract and additional teaching positions at various universities, covering topics such as informatics, cultural heritage, and innovation management:

- Additional assignment to the teaching, for the academic year 2005-2006, as part of the “General Informatic” discipline, at the degree course in Communication Sciences of the Faculty of Letters of the Libera Università Maria SS. Assunta of Rome
- Additional assignment to the teaching, for the academic year 2004-2005, as part of the “General Informatic” discipline, at the degree course in Communication Sciences of the Faculty of Letters of the Libera Università Maria SS. Assunta of Rome
- Additional assignment to the teaching, for the academic year 2001-2002, as part of the “General Informatic” discipline, at the degree course in Communication Sciences of the Faculty of Letters of the Libera Università Maria SS. Assunta of Rome
- Contract professor, in the academic year 2004-2005, for the discipline “Informatic Skills”, at the degree course in Political Sciences of the Faculty of Law of the Libera Università Maria SS. Assunta of Rome
- Contract professor, in the academic year 2003-2004, for the discipline "Informatic Skills", at the degree course in Political Sciences of the Faculty of Law of the Libera Università Maria SS. Assunta of Rome
- Contract professor, in the academic year 2002-2003, for the discipline “Computer Science”, at the Integrated Course of Physics, Statistics and Computer Science, Faculty of Medicine and Surgery, Degree of Neuro Therapist and Psychomotricity of the Evolutive Age, of the University of Rome “La Sapienza”
- Contract professor, in the academic year 2002-2003, for the discipline "Databases and information systems", at the degree course in History and Conservation of Cultural Heritage of the Faculty of Humanities and Philosophy of the University of Macerata
- Contract professor, in the academic year 2001-2002, for the discipline “General and applied computer science”, at the degree course in History and Conservation of Cultural Heritage of the Faculty of Humanities and Philosophy of the University of Macerata

- 2001 (Center of Economic and Social Engineering - CIES of the University of Calabria, Arcavacata of Rende) MAJISE High Education Project of the School of Innovation Policy - Preliminary studies on both the issues related to the innovation in the cultural heritage field and on the prospects for their research development.
- 2000 (Basentech - Basilicata Scientific and Technological Park - Teaching assignment within the “Technological and Innovation Manager” Master (Ref. MURST D.M. 255 25/03/94), on the following themes: recovery of information from databases and other documentary informatic sources about technology transfer; development and use of databases in the field of cultural heritage.
